

## STAFF MOBILITY

**Knowledge, skills and competence to be acquired:** The participants will be able to know Spanish culture, live and learn in a different cultural environment. Professionally, they will learn about VET centers and companies in mechanics, electronic and metal turner sectors. They get to know about the educational system and work-processes of companies in Spain

**Detailed programme of the training period:** The participants will visit during one week (from Monday to Friday) different VET centers and companies in the above mentioned sectors, during that time they will communicate with teachers and professionals.
